

REMARKS

Claims 4, 5, 8-10 and 13-24 remain in this application. Claims 15-20 have been withdrawn from consideration, claims 1-3, 6, 7, 11 and 12 have been canceled, claims 4, 5, 8, 10, 13 and 21-23 have been amended, and new claim 24 has been added.

Applicants thank the Examiner for the indication that claims 4, 8-9, 13-14 and 22-23 contain allowable subject matter. By the above amendments to the claims, claims 4, 22 and 23 have been rewritten into independent form, and are therefore now in condition for allowance. Claims 5, 8-10, 13, 14 and 21 all depend either directly or indirectly from the allowable claims, and are therefore also in condition for allowance. Applicants submit that new claim 24 is also in condition for allowance since the cited prior art does not disclose or suggest a programmable control system that monitors the outdoor humidity using at least one of a temperature sensor and a humidity sensor, and controls ventilation in the enclosure by opening one or more louvers in one or more walls of the enclosure.

Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
